Summary

I believe that, when people are learning, they are growing. I'm on a quest to make excellence a part of those lives that I come in contact with. For me, every day is an opportunity to make the world that I live and work in a better, more creative, and more compassionate place.

Following the effectiveness of Digital Transformation in the world, as the Co-founder and Chairman of "HAAMI Digital Consultancy", I try to help businesses in this direction.

I'm eager to learn new concepts in the world of technology, so if you are looking to improve your business situation, or have the opportunity to partner with our enterprise, or find yourself in the field of growing digital approaches as well as new technologies, I look forward to hearing more from you.

Hopefully, we can be effective leaders in the new world together.

I'm a lifelong optimist who believes that no mountain is too high to climb, every obstacle has a solution attached to it and even the most far-reaching dreams can be realized with imagination, creativity, and resilience. My passion is to help the people I come in contact with turn a great idea into a breakthrough experience that can be seen, touched and felt global.

I see that obstacles are just opportunities in disguise. Always looking over the next horizon, I am constantly seeking a chance to be a part of that one innovation that can change the way people experience the world.

If you want to talk about business growth, Digital Transformation, strategic direction, creative thinking, and operational leadership, I'd love to talk!

Feb 2021 - Jun 2021 (5 months)

Monstera Capital is the first smart investment center in Iran that provides the most reliable and effective consulting investment services for investors.

Education

MIT Professional Education

Professional Certificate Program, Digital Transformation

Jan 2021 - Jan 2022

The MIT Digital Transformation Certificate is a one-year-long executive post-graduate program, focused on developing senior managers' hard skills in understanding and managing: artificial intelligence (AI), the Internet of things (IoT), Cloud Computing, DevOps, and Blockchain, while also further developing leadership, innovation, and cultural awareness soft skills essential to business success in the digital age.

The 4th Industrial Revolution is upon us and organizations are going through unprecedented changes. Both organizations and their employees must be trained to adapt and prepare for the challenges ahead. To address this need, MIT Professional Education has designed reskilling and upskilling solutions, to help organizations build a culture of continuous education providing their employees with the knowledge and skills needed for the 4th Industrial Revolution.

Technische Universität Berlin

Master of Engineering - MEng, Digital Blue Engineering

Oct 2021 - Jan 2022

Die interdisziplinär ausgerichtete Blue Engineering-Initiative bietet (angehenden) Ingenieur_innen einen Blick über den Tellerrand und eine (inter-)aktive Auseinandersetzung mit ihrer sozialen und ökologischen Verantwortung. Sie erhalten so Gelegenheit sich ihrer eigenen Werte bewusst zu werden und diese mit anderen zu reflektieren. Blue Engineering hat zum Ziel die einzelnen Ingenieur_innen innerhalb von Hochschulen und Betrieben zu vernetzen, so dass sie gemeinsam ihre Verantwortung für eine verantwortliche und demokratische Technikgestaltung übernehmen.

United Nations Institute for Training and Research (UNITAR)
